Invisible pivot hinge

argenta[®] pivotica[®]

Invisible pivot hinge

Argenta introduces the *argenta[®] pivotica[®]*, a new, minimalistic and invisible pivot hinge with several unique characteristics. Thanks to its compact size the *pivotica[®]* is not only easy to mount in the door, the pivot hinge can also be installed in pivoting floor-to-ceiling-height doors.

The innovative pivot hinge even allows for the pivot point on the door to be chosen freely (at a minimum of 40 mm from the side of the door); this way, wide doors can for instance rotate from the middle. The *pivotica[®]* is suitable for both left and right doors.

Thanks to the *argenta[®] pivotica[®]* architects can use spaces and walls creatively, seeing how the pivot hinge does not require a door frame and the door can be aligned perfectly with the wall.

All parts of this pivot hinge are rust-resistant. The *pivotica[®]* is suitable for indoor use of both modern residential buildings as well as public buildings and offices.

The *pivotica[®]* is preferably used in combination with the *magnotica[®]*, a contactless doormagnet.

Finish: brushed stainless steel

Advantages

- Invisible
- Suitable for floor-to-ceiling-height doors
- Invisible door closer
- Easy installation
- Free choice of rotating position (hinge point)
- Adjustable outlining (straight outlining)
- Fixed settings at -90°, 0°, 90°
- Child-friendly (easy to open)
- Pivot system to be mounted in the doorpanel and not (as usual) in the floor or ceiling

Max. door weight	45-60* kg
Max. door width	1,5 m
Min. door thickness	40 mm

* Max. 45 Kg to ensure the proper functioning of the door closer.
